EDUCATION

De La Salle Lipa - BS in Information Technology
Expected Graduation: 2027 | Lipa City, Batangas, Philippines
Core Focus: Advanced Database Systems, Concurrency, Distributed Computing

TECHNICAL SKILLS

Languages: Java 21, TypeScript, JavaScript, Python, SQL
Frameworks & Tools: Spring Boot 3, Next.js 15, Node.js, Express, Flutter, Three.js
Databases & Infrastructure: PostgreSQL, Redis, Flyway, Docker, Testcontainers, Git

FEATURED PROJECTS

1. B2B SaaS Billing Engine [Java 21, Spring Boot 3, PostgreSQL, Flyway]
- Multi-tenant schema isolation, row-level pessimistic locking, 40 automated tests.

2. IncidentPulse [TypeScript, Express, Redis BullMQ, Next.js 15, Flutter]
- Distributed on-call alerting platform with Redis delay queues and WebSocket triage.

3. High-Throughput API Rate Limiter [Java 21 Virtual Threads, Redis, Prometheus]
- Lock-free Atomic CAS token bucket reverse proxy handling 25,000+ RPS at sub-3ms p99.

4. Kamunica [Flutter, Three.js 3D WebGL, Python FSL, Blender]
- Interactive Filipino Sign Language learning ecosystem with 3D avatar guides.
