ANGEL AMAYA B. BALION

Lipa City, Batangas, Philippines • 0976-456-7794 • angelamaya.balion@gmail.com • LinkedIn • GitHub (amy9273)

PROFESSIONAL SUMMARY

Fourth-year BS Information Technology student at De La Salle Lipa with hands-on experience in data analytics, SQL querying, and relational database design. Skilled in Python (pandas), Power BI, and Excel for data cleaning, ETL workflows, and KPI dashboard reporting. Seeking a Data Analyst internship to support data-driven decision-making and operational reporting.

PROJECTS

Business Expense Analysis Dashboard | Power BI, Microsoft Excel, DAX | GitHub

- Built an interactive Power BI dashboard to track departmental expenses, budget allocations, and spending trends.
- Cleaned and transformed raw transaction datasets, writing DAX measures to calculate month-over-month variances.
- Analyzed supplier spending patterns to identify recurring cost drivers and potential budget optimizations.

Fleet Management Data Warehouse Project | SQL, SQLite, Star Schema Design | GitHub

- Designed a star schema with fact and dimension tables to model vehicle trips, fuel usage, and maintenance logs.
- Developed SQL queries using multi-table JOINs, subqueries, and aggregations to compute operational fleet KPIs.
- Created SQLite database views to evaluate vehicle utilization rates and calculate average operating cost per kilometer.

Kamunica: 3D Filipino Sign Language Platform (Capstone) | Flutter, Firebase Firestore, Cloudflare R2 | kamunica-landing.onrender.com

- Integrated Firebase Firestore to store curriculum modules, track student quiz scores, and record lesson progress.
- Built web administrative reporting tools to monitor student completion rates, analyze usage logs, and distribute updates.
- Structured cloud storage on Cloudflare R2 to manage 3D sign-language animations and educational multimedia assets.

WORK EXPERIENCE

Work Immersion Student Trainee (Data Management) - University of Cabuyao | Dec 2022 - Jan 2023

- Digitized over 100 physical institutional records into structured spreadsheets with standardized naming conventions.
- Applied data validation rules and audit checks in Microsoft Excel to identify and correct data entry errors.
- Built administrative summary reports using Pivot Tables and XLOOKUP to assist staff with institutional reporting.

TECHNICAL SKILLS

- **Data Analytics & BI:** Power BI, Microsoft Excel, Data Cleaning, KPI Analysis, Dashboard Development, Reporting
- **SQL & Databases:** SQL (JOINs, Aggregations, Window Functions), PostgreSQL, SQLite, Star Schema Design, Firestore
- **Programming & Libraries:** Python (pandas), JavaScript, Java, DAX
- **Spreadsheet & Analysis Tools:** Pivot Tables, XLOOKUP/VLOOKUP, Data Validation, Git, GitHub Actions, Figma

EDUCATION

Bachelor of Science in Information Technology - De La Salle Lipa (DLSL) | Expected Graduation: June 2027

Relevant Coursework: Database Systems, Data Structures & Algorithms, Object-Oriented Programming, Networking, Web & Mobile Development

CERTIFICATIONS

- **DataCamp:** Introduction to SQL, Intermediate SQL, Data Manipulation with pandas, Joining Data with pandas (2026)
- **DataCamp:** Introduction to Python, Intermediate Python (2026)
- **Coursera & Cisco:** Python Data Structures, Programming for Everybody (2022) • Cisco Networking Basics (2025)
